Introduction page 4

Upon entering Hingham High School from a distant place, Mary and Bill headed towards the front office. After receiving a visitor's pass from Mrs. Schlillig, they went through the Guidance Office where they received a temporary schedule from Mrs. Gustafson. Next, they proceeded down the long corridor, cautiously joining the flow of unfamiliar faces. When they approached Mr. Tierney's room they turned right and entered another corridor. They continued down the hall until they approached a set of doors on the right near Mr. Caldwell's classroom. After conferring a minute, they decided to go through the doors and down the winding staircase. At the base of the stairs they found themselves in a long hallway.

Hearing many voices, they turned right and entered a room which appeared to be the cafeteria. Small groups of students were seated sporadically around the room talking and having a good time. After hesitating a moment, they walked slowly across the room and exited to an outside area where students were smoking cigarettes and throwing a frisbee. After a few minutes they left this area and crossed the room once again. While standing where they had originally entered, they noticed another hallway and a set of doors to their right. Mary and Bill proceeded down the short hallway, passed Mr. Kane's Industrial Arts room and . . .

They found themselves at the gym. Inside students dressed in shorts and T-shirts were playing basketball. They watched the game for a while and then decided to continue down the corridor. They went by a library, passed through a set of doors and found the auditorium to their left. There, to their surprise, a play was in progress. After watching the entire performance they went outside the building into a parking lot where they saw students driving off in cars. As they were standing there a small, beat-up, green car pulled up and the driver asked if they would like to be shown aroung Hingham. Consenting, they jumped into the car and left the grounds of Hingham High School

7

When they returned to the high school the driver decided they should meet some people around the school. At the time they returned there was a student council meeting in progress and the three observed a portion of the meeting. After that the driver introduced them to the class officers, members of the National Honor Society, and captains of the athletic teams. These people comprise the leadership of the school . . .

By the time they finished meeting everyone, after school activities were in full swing. They decided to go around the school and see the various activities and the driver offered to be their guide once again. They began outside, viewing the different sports' practices.

Next, they proceeded to the music room where the band was rehearsing for an upcoming competition. They continued throughout the school witnessing many other activities and meetings. When they finished, all three were exhausted from the day's activities. They jumped into the green car and left Hingham High School for the time being . . .

MR. O'DAY GRADE ADMINISTRATOR GRADE 10

Mr. O'Day:

Mr. O'Day is dedicated to his job as an administrator and is involved in organizing many of the school's activities. He gives many hours of his time to help out at the athletic events. His assistance is sorely needed because many school activities would not survive without his help. Mrs. Galo:

Mrs. Galo is a very busy person as she also teaches a class. She is very helpful in organizing activities and fund raisers for the junior class. She devotes her weekends to insure that these class activities will run smoothly and her hard work is deeply appreciated by everyone at Hingham High School.

Dr. Lawrence:

Dr. Lawrence is a fine administrator who has developed a good rapport with students. He has been extremely helpful to the Class of '79 during his three years as their administrator. Much of the class's success can be attributed to his work behind the scenes.

DR. LAWRENCE GRADE ADMINISTRATOR GRADE 12

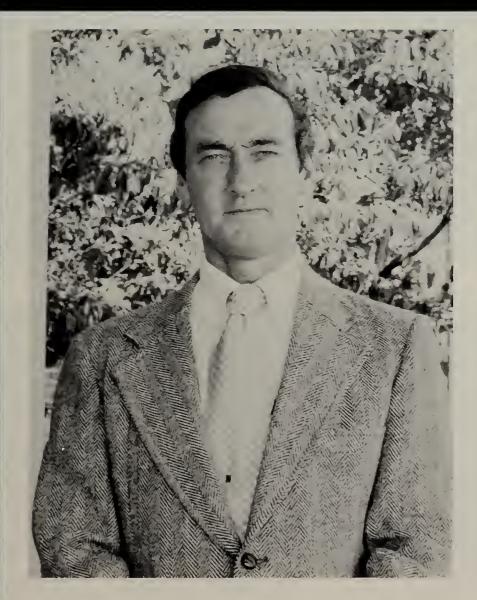

DR. CHARLES VICKERY PRINCIPAL

Dr. Vickery's presence is felt all around the school as he is a very visible principal. His door is always open for students who are in need of guidance. He attends as many school functions as his busy schedule permits and takes interest in all aspects of school life. Dr. Vickery is an outstanding leader and Hingham High School is fortunate to have him as principal.

FALL SPORTS

The fall sports season at Hingham High was very successful. All of the teams were extremely competitive and carried on the winning tradition that exists at Hingham High. The success can be attributed to outstanding teamwork and overall talent

The cross country team had a satisfying season and compiled a better than average record. The races were held at Worlds End on a course designed by Coach Ryan. The newly developed girls cross country team also had a fine season and the program appears to be gaining support. This past season indicates that the cross country program is on the upswing and there are prospects for even better performances in the future

In field hockey, the team ended the season with a 6-4-4 record, which was just shy of qualifying for the state tournament. Nevertheless, the team was in every game and always gave the opponent a tough battle. Their aggressive style of play was shown through a strong team defense and offense. Considering the team was young, the season's accomplishments were outstanding

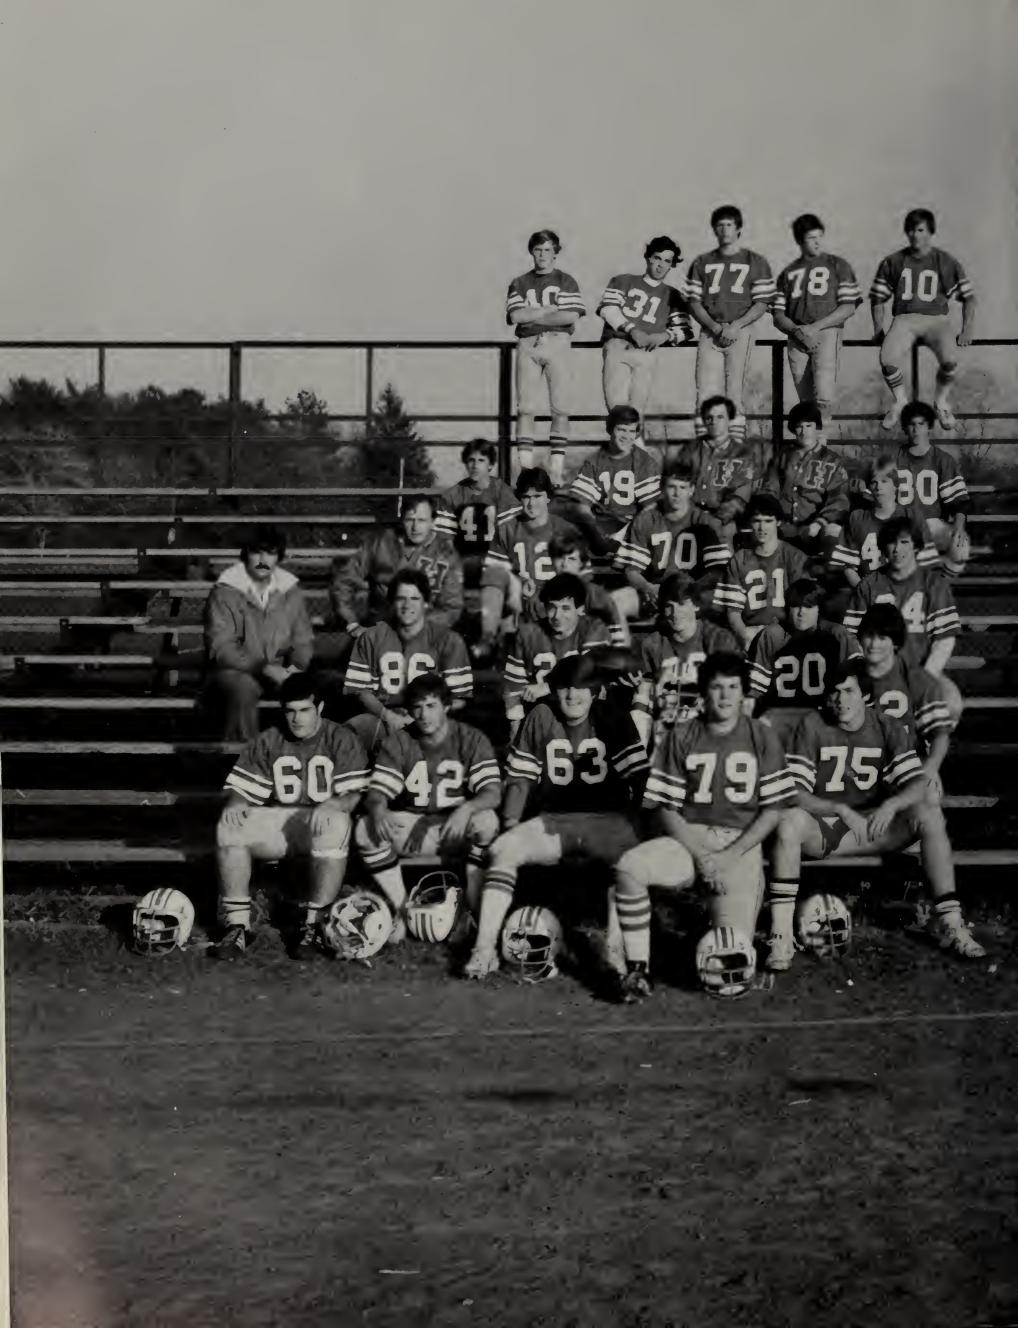

The football team had a great season, capturing the Old Colony League title with a 9-1-0 record. It thrived on teamwork and had an exciting style of play. This year was the second time in three years that the football team had won the league championship

The golf team had a fine season this year, posting a 9-7 record. The team plays its home matches at the South Shore Country Club and travels to away matches in a comfortable motor home. The atmosphere was relaxing, which undoubtedly helped to account for the excellent showing

Coming off an outstanding season, the soccer team has continued its competitiveness this year. The team was extremely quick which allowed for games full of excitement. They gave all their opponents stiff competition and finished the season near the top of the league

WINTER SPORTS

Winter sports enable the students at Hingham High to keep active during the coldest part of the year. The teams take pride in their performances and always generate plenty of excitement

This past winter was an exciting season for the winter sports teams as both basketball teams enjoyed extremely successful seasons in qualifying for tournament play. The boys compensated for lack of height through quickness and speed. The team had a balanced scoring attack and often relied on experience to guide them to victory. The girls team had great overall ability, which has been a trademark in past years. They were a fast paced team and won many games with fine perimeter shooting

The gymnastic team received more support as this year there is a growing interest in the sport. The team had a better than average record and lost two meets by tenths of a point. The team had some outstanding individual performances and hopefully with increasing numbers, greater success will be achieved in the future

Combining a potent offense with solid defense, the hockey team experienced an outstanding year. The team, which abounded in talent, qualified for the state tournament for the 27th successive year. A nice blend of seniors and underclassmen led to the success of the team

The winter track team had one of its finest seasons ever in capturing a tie for the league championship. Every Friday afternoon the team traveled to Boston to compete. This year's squad had great team spirit which helped toward a winning season

The wrestling team continues to show signs of popularity as this year's team had a satisfying season. The team continued the competitiveness that existed in the past. There are many good young wrestlers and the future is bright for the Hingham High wrestling team

SPRING SPORTS

Every year the students wait anxiously for the spring sports season to begin so everyone can enjoy the outdoors once again. The practice fields are constantly active as teams prepare for opponents. The result of the spring sports season is always a tribute to athletes at Hingham High

The baseball team is coming from a fairly successful season and hopes to improve this year. The team just missed qualifying for the state tournament by losing one of the final games. A powerful hitting lineup led the team to its victories. Hopefully, the team will be able to combine strong hitting with solid fielding to win a league championship.....

Lacrosse is one of the fastest growing sports at the high school. Each year the turnout is huge and the quality of play is improving tremendously. The team is characterized by a free spirit which allows the players to play to the best of their abilities. The girls lacrosse team is also increasing in popularity. Although the team does not have a set schedule, the players are dedicated to a winning attitude. The senior dominated team has an outstanding offense and defense which will insure another rewarding season

The softball team had a fulfilling season last year with a young team. The team strengths lie in defensive play and quickness. All the players enjoy themselves and look forward to another exciting season

In tennis, both the boys and girls teams had great season. The boys had an unbelievable record of 16-0 and won the Old Colony League crown. The team consisted of finesse and power players which easily allowed them to outplay their opponents. Most of the team is returning this year and should have another outstanding season. The girls team won most of their matches but just fell short of qualifying for state competition. The team is also young and looking for another winning season

The track teams had fine seasons this past year through timely teamwork. The girls were competitive in all the events and had strong individual performances. The team has alot of potential with which to work this season. The boys' hard work payed off as they won more meets than they lost. The team also had strong individual performances and should compete evenly with the best of teams this year

While visiting Hingham High School, Mary and Bill were fortunate to meet the members of the senior class. At first they were confused as to why the seniors were labelled an elite group. Then they discovered some of the reasons for this unique distinction. First of all, the senior year is the end of a long journey in public education, with new adventures lying just ahead. Mary and Bill also learned that certain individuals and organizations in the school have received special recognition in academics, athletics, drama, and music. There are members of the class who have qualified for the National Merit Award, which signifies outstanding academic achievement. The athletic teams are always highly competitive in the Old Colony League and there are individuals who have been acclaimed for outstanding performances through all star and all scholastic selections. The Drama Club always receives recognition in the All State Drama Festival. Through long hours of practice and undying dedication, the band has had its share of success in the Southeastern Massachusetts Band Association competitions. In addition to these organizations, the Student Government provides the school with necessary leadership. This year's senior class can also be noted for its loyalty, fun, and spirit. Witnessing athletic events or a class meeting gives evidence of these qualities. All of the organizations and people at Hingham High combine to make the graduating class truly outstanding.

SUCCESS

"To laugh often and love much; to win the respect of intelligent persons and the affection of children; to earn the approbation of honest critics and endure the betrayal; false friends; to appreciate beauty; to find the best in others; to give of one's self; to leave the world a bit better, whether by a healthy child, a garden patch or a redeemed social condition; to have played and laughed with enthusiasm and sung with exultation; to know even one life has breathed easier because you have lived – this is to have succeeded."
